CLOSET CLEAN OUT LOVE

Over the years I naturally just kept adding and adding clothing to my wardrobe. However, when I went to pick out an outfit for the day, I never felt like I had anything to wear. I decided it was time to have Alli come over and clean out my closet. She organized the clothing items by what I should keep, sell, and get rid of. She then color coordinated the items I was keeping and categorized it by season. After the closet was completed, Alli then personally dropped off the items that I was donating as well as sold some other clothing so I could get money back to put toward my new wardrobe! I highly recommend the closet clean out service because it has made it so much easier to get dressed in the morning. [Angie T.]
